

the ATTICA FOUNDATION

working towards a brighter future

COUNT US IN

We have considered the state of unemployment in our country and we have heard the call to address this matter collectively between business, government and private institutions. We have made a choice - **we want to make a contribution, play a role, and make a difference** for our unemployed youths, as far as our resources will take us.

We would like to introduce The Attica Foundation NPC, a registered non-profit organisation, (NPO 237-251), established by four individuals who believe in our vision of a society where the majority of work seekers are employed and/or economically active. Although we cannot solve for the factors affecting the availability of jobs, **we believe that more can be done to provide training, development and practical experience**, with the goal of improving access to employment opportunities. Our purpose is to **provide fully-funded training**, for suitable unemployed individuals, to improve access to employment opportunities, by using our resources,

chosen service providers, networks, education and industry knowledge to equip these individuals with technical skills, and practical experience.

To achieve this, we need your help. A reminder of the South African Unemployment Rate.

As sourced from Statistics South Africa.

FOCUS ON SA YOUTH

In 2014, Mr Cyril Ramaphosa was quoted as saying, that despite Government's initiatives, "we need special measures to ensure that South Africa's youth have access to training, work experience, jobs and entrepreneurial opportunities".

A NATIONAL CRISIS

As recently as June 2019, at the International Labor Organisation annual conference, President Ramaphosa is quoted as saying, "Youth unemployment in South Africa has become a 'national crisis'."

CAN WE COUNT YOU IN?

Our primary objective is to run a year-long internship program for select unemployed applicants, paying a market-related stipend. Further to our training content and to bridge the 'experience-gap' for our learners, we will rely on our members and networks to source projects that will provide that real-life work experience. As a non-profit organisation, we are reliant on the generosity of funders, sponsors and donors in all shapes and forms.

We would be most grateful for an opportunity to discuss any involvement that your organisation can play in helping us achieve our goal.
